INTERNATIONAL WOMEN'S DAY SPECIAL

A bold front-page takeover by Dainik Bhaskar for International Women's Day, where the most premium space turned into a powerful canvas of real facts, fearless voices, and inspiring change, celebrating women who lead, challenge norms, and leave a lasting impact beyond just one day.

DRIVING MEANINGFUL AWARENESS

We aimed to use the most impactful media space to go beyond and spark meaningful awareness around women's voices, achievements, and everyday challenges. By leveraging the front page, the objective was to highlight real facts, inspire conversations, and position the initiative as a strong statement on empowerment that resonates with a wide audience.

A WELL-DEFINED STRATEGY

- We collaborated with female creators across key cities to ensure diverse and widespread reach.
- Each creator shared the special front page by Dainik Bhaskar on their profiles with their personal perspective.
- The front page was adapted in regional languages, like Marathi, across Maharashtra cities (excluding Mumbai), to enhance local relevance.
- This approach made the campaign more relatable, culturally connected, and impactful across different audiences.
